IBM Careers

Ref: 103807 - Associate System Engineer

Dear MADHAN SHANMUGAM,

We are excited to see that you have applied for a position at IBM, and we want to ensure that you have the best opportunity to showcase your fantastic skills. We understand that a resume alone doesn't always reflect a candidate's full potential. That's why we invite you to complete one or more of the following assessments, which will help us gain a more comprehensive view of your capabilities.

IBM values accessibility and is committed to ensuring that every candidate has an equal opportunity to showcase their skills and potential. We support measures like additional time for persons with disabilities on selection assessments.

We use the following assessments for selection purposes. You will be invited to complete **1 or more of these assessments, depending on the role you are applying for.** The next step in the process includes one or more assessments – described below.

The Coding Assessment - helps us to understand your level of programming knowledge and ability. You will be presented with a coding interface to solve coding challenges. **This is a timed assessment.**

Recorded Competency Video - this short and engaging assessment allows you to demonstrate your workplace competency beyond what a traditional resume allows. You will be presented with a pre-recorded question, and you will be asked to record your response . **This is a timed assessment.**

English Language Assessment: Evaluate your English Language skills and competencies. **This is a timed assessment.**

We believe that these assessments will provide you with a better opportunity to showcase your skills, and we encourage you to take them seriously. We also want to make sure that you feel comfortable and supported throughout the process.

All applicants are requested to click the accommodation link below. If you are a person with a disability, please follow the link to submit any adjustments that you require, such as extra time. IBM will review the details of your requirements and work with you on any adjustment options for your application. **It is important that you submit your requirements before starting any assessments**. If you do not need extra time on the assessments, please mark your response in the link below.

Accommodation Form

Please note that this form must be completed for each position you apply for that requires an assessment.

For additional information and helpful tips, please visit our blog.

We appreciate your interest in joining our team and wish you the best of luck as you complete these assessments. We can't wait to see all that you have to offer!

Sincerely,
The IBM Talent Acquisition Team
